

# The Data Center Partner Behind Your Build

Whether you're managing a major data center project or specifying systems for the next build, FCG Flow Control Group brings the industrial expertise and nationwide supply network to support you.

WHY NOW?

## The Data Center Market Isn't Coming. It's Already Here.

AI and cloud infrastructure are driving one of the largest industrial supply cycles in history — and it runs on the same systems FCG has supplied for decades.

Projected 2026 data center capex (Goldman Sachs) **\$527B**

Estimated costs in power & cooling equipment alone **\$74B**

Annual growth in liquid cooling **45–50%**

WHY FCG?

## One Network. A Lifetime of Industrial Experience.

FCG is a unified group of industrial supply companies—operating as one team, one supply chain, and one point of contact for complex projects.

Distribution and supply providers **190+**

Local technical and service experts **1,000+**

Manufacturer partnerships **3,000+**

WHAT WE'LL DO FOR YOUR PROJECT

## From Cooling Loops to Critical Infrastructure—We Have What the Build Requires

Our industrial categories map directly to the systems that keep data centers running—cooling, flow, power backup, filtration, and beyond.

### Cooling Infrastructure

Pumps, heat exchangers, and thermal management components that keep high-density compute environments operating within safe temperature thresholds.

### Flow & Fluid Control

Valves, manifolds, quick-connects, and piping solutions that manage the movement of fluids through critical cooling and process loops.

### Filtration & Air Quality

Filtration systems that protect sensitive equipment from airborne contaminants, support HVAC performance, and maintain clean compressed air across the facility.

### Automation & Controls

VFDs, PLCs, and control panel solutions that optimize energy efficiency, improve system visibility, and reduce unplanned downtime.

CONNECT WITH OUR DATA CENTER TEAM

## Your Next Supply Chain Partner Is One Conversation Away

Tell us about your data center initiative and we'll connect you with the right FCG team.
